What do you mean by a gift card?

A gift card is a prepaid, digital or virtual card with a fixed value that you can use to make purchases at the store. A gift card offers flexibility to the receiver, giving them the freedom to choose the gift they want. Gift cards come in various types, including online stores, dining, entertainment, virtual store shopping, or other services.

Reasons to sell your walmart gift cards?

- Gift cards come in many types, and not all match your personal preferences. The card belongs to Walmart, and you may have no intention of buying from it, so the gift card can easily go unused.
- Gift cards have many restrictions, such as limited values and expiration dates, and following them can be a hassle. You can simply sell the gift card and get cash for it, so you can get the gift you like
- Gift cards have expiry dates, and having multiple cards with similar expiry dates makes it hard to use them all. Once the gift cards expire, they become useless and a waste of money. If you cannot find what you want to buy and the gift card is expiring, you can simply sell the gift card.
- Many gift cards are such that you must use them in the store. Visiting the store is not always an option, as it takes time and the store may be very far. In such cases, selling the gift card is the best choice to get the value out of it.
